

Capability Statement

Company Overview

Prime Technology, LLC, a Veteran-Owned Small Business headquartered in North Branford, CT is a proprietary manufacturer of precision instruments and systems, serving the commercial, nuclear, and military marketplaces. The company's six divisions manufacture products ranging from intricate electromechanical assemblies to state-of-the-art electronics and highly accurate pressure sensors. Prime Technology is a vertical manufacturer with on-site machine shop, tool room, and molding facilities. These capabilities enable it to produce to stringent nuclear and military specifications.

Facilities and Equipment

Prime Technology was founded in Mt. Vernon, NY in 1973. Since 1982, we have been located on twelve acres in North Branford, CT in a 36,000 square foot facility. We also have a 20,000 square foot facility in the Dominican Republic for commercial manufacturing that has been in operation since 1986. We have developed a vertical manufacturing operation, with the ability to perform a variety of manufacturing processes such as automated surface mount pick and place, through hole assembly, wire bonding, mechanical assembly, metal fabrication, secondary machining, painting, and marking.
